Democratic Prospects in Ohio. Obio is usually regarded as certain for Fre mont. The strong abolition proclivities of the State forbade all hope that she would cast her vote for Mr, Buchanan, the champion of the constitutional rights of the South. The Democrats of Obio are, however, unwilling ta concede that their State is thus disloyal to the Union, and are struggling with heroic zeal to avert such a calamity. From the following summary of the vote of 1852, 1854 and 1855, which we find in the Enquirer, there is some ground to hope that the State may be carried for Buchanan.

Now look at the vote of 1855: received.....

312.600 This shows a falling off in the Abolition vote of 27,000 in one year, and a gain for the Democracy of 22,000. Ag in, look at the fact that the Pasionists had a clear majority of 74,000 in 1854, and were in a minority of 10,000 when Chase was elected in 1855. Now, the question arises will not the deceived masses of the Democracy, that refused to attend the polls in 1854, come to the polls in 1856? We answer, they will. The next quetison that arises is, will the Fillmore vote exceed that given Trimble? Of this there can be no question. Mr. Fillmore must receive not less than 60,000 votes, and good judges place it at a higher figure. Assuming this to be true, and the vote to be as full as in

360,000

had been cast before, and that they lost 40,000 to attend the polls. They will also find that the measure originated with a Northren Senator, with Democrats it is one thing to remain at home and quite another to vote an Abolition ticket. Gur Bardstown Democratic friends have lately been gladdened with some eloquent Democratic speeches. First they had a speech from Mr Miles, of Louisiana, an eloquent, chaste, and accomplished orator. Next they had the pleasure of listening to Mr. James R. Barbour, an old line Whig farmer of Washington county, who delivered ad eloquent and patriotic speech in favor of Buchanan and Breckinridge. And a few days after, the eloquent young Kentucky orator, John 1, Brown, electrified them with one of his rich, glowing, and sparkling

They claim that he has al- awarded at the Lexington Fair: ways been opposed to the acquisition of slave territory, and pledge him never to consent to the extension of slavery. It shows that Fillmore's northern friends believe that his antecedents-antagonism to slavery in every shape and every form-are the true exponents of his present views: and that his denunciation of the repeal of the Missouri restriction is overwhelming evidence of the fact. This letter also shows that the Know-Nothing platform is interpreted at the north to be an anti-slavery platform, and commits the party against the admission of Kausas

as a slave State. No intelligent man can read this letter and fail to be disgusted with the turpitude of Mr. Fillmore's southern supporters :

FILLMORE "ABIDES BY HIS ANTECEDENTS"-IE OPPOSED TO THE EXTENSION OF SLAVERY—IM-PORTANT TESTIMONY FROM A RESPONSIBLE PER-SON.—Mr. Hiram Ketchum, of New York, is amongst Fillmore's most confidential and influential friends, in a personal as well as a political sense. If any man in the north is entitled to know and is authorized to declare Fillmore's opinions on public affairs, Mr. Hiram Ketchum is that individual. Justified by the intimate reations which have long existed between himself and the Know-Nothing candidate, Mr. Ketchum rentured some time since to define Fillmore's position in regard to the extension of slavery. The following letter, from the New York Courier and Enquirer of the 3d of September, will be understood without further comment :

To the Editors of the Courier and Enquirer : In your leading article or Saturday morning, you have seen fit to make free use of my name, connecting it with imputations which I feel bound to repel.

In my speech at New Haven, speaking upon the subject of slavery extension, I said:

'But I do not intend to ignore that subject on
this occasion. If there is any man here, or in the State of Connecticut, that has ever opposed the extension of slavery more than he who addresses you to-night, or has ever done more to give the slave his legal and constitutional rights, then I would like to see that man. (Applause.) Gentlemen, I attached myself early in life to that party which was always and ever opposed to the extension of slavery. And I say here to-night, that the Whig party of the north has al-ways had that creed, and these Republicans can't take ont a patent for it for many a long (Merriment and applause.) And I say that Millard Fillmore has been true to that party, and has never had, since he entered into political life, any other principle but that which would prevent the further extension of slavery. (Ap-

But upon this subject of the extension of slavery what are Mr. Fillmore's principles? Why, he thinks just as we all think, I will venture to say, if my friend will allow me to use his name, that if the Rev. Dr. Taylor of this city, now present, and Mr. Fillmore, should sit down together, they would not disagree a particle, and I only exemolify by these distinguished persons the common feeling of the North. They think alike-they would act alike. Now, what is Mr. Fillurore's ppinions upon the present crisis? I read from ne of his recent speeches :

"I have no hesitation in saving what most of ou know already, that I was decidly opposed to the repeal of that [Missouri] Compre Good faith, as well as the peace of the country, seemed to require that a compromise which had stood for more than thirty years, should not be wantonly disturbed. They will discover that our blame to our Southern hrethren. But is this just?

Iriends remained at home in that year, refusing No, no! It must be borne in mind that the ern President." [Applause.]

Now, my friends, what would Mr. Fillmore do? Well, I cannot undertake to say what he and Abolitionism will find as it already begins to feel, from the tremendous meetings the Dedo all he could to see fair play in Kansas, and if he would do as I should recommend to him, Kansas should be admitted as a State under two years from this date. We have had enough of admitting these unfledged States. fam utterly opposed to admitting any other States, since we have admitted California, until we see how she behaves herself as a Territory, and whether the people are capable of governing themselves.— Therefore, upon this subject, I believe Mr. Fillmore to be entirely sound, and I am sure I would not advocate him here to-night if I did not."
By every word that I then said, I stand, and

shall say it again. I support Mr. Fillmore for the Presidency, because of his well-known antecedents as a public man, and because I have seen no evidence that he resects those antecedents, and because I am satisfied that he abides by those antecedents, and distinctly places himself upon them before the What are his antecedents upon the subject of

All over the State the Democracy are at work manfully, and if they will but continue faithful gentlemen, as well as 1 do—they have ever and algentiemen, as well as I do—they have ever and al-ways been opposed to the extension of slavery. While he was in public life, that was a settled question under the Missourl Compromise. By this Com-promise, all territory North of 36 deg. 30 min. was made Free Territory, and all South might be made Slave Territory. The only questions, there-fore, upon which his principles upon the subject title, par excellence, of "Old-Line Whigs," is of the extension of slavery could be tested, were questions as to the acquisition of territory which must become Slave Territory. To such acquisi-tions, Mr. Fillmore and the whole Whig party of the North were opposed. I have shown above what were Mr. Fillmore's opinions of the repeal of the

Brinley, of Simpsonville, of course was on hand with speci mens of every kind of plow of his manufacture Mr. Brinley has this time rather excelled himself, for I have never seen more complete plows and cultivators from his establishment than were in

the ring this morning. Of course he took all the premiums.

Mr. Joseph A. Ilumphreys, of Woodford, exhibited a ten-horse power portable steam engine, for farm work. Mr. H. was the first to introduce into this neighborhood steam for threshing, grinding, entting straw, &c., but now there are a number in operation, with such perfect success that they promise to supercede horse-power for these operations on every well conducted farm Corn coh mills were well represented, but the "Improved Little Giant," by Scott & Hodges, exhibited by Sanders & Keizer, was head and shoulders over every other and drew the only

Owen, Lane & Dyer, of Hamilton, Ohio, exhibited specimens of their horse power threshers and cleaners, which drew the first premium. J. Mc-Kim, of Portland, took the only premium on wheat fans.
Among the novelties I noticed a cloverseed

gatherer, thrasher and cleaner, small and com-pact, easily drawn by one horse. The operation of gathering, threshing and cleaning is designed all to be performed at once. The arrangement for gathering the seed is quite complete, and this alone renders the machine a valuable one. Of the success of the other operations I could judge better hy witnessing its performance. It was patented in May last by M. S. Kahle, of Lexing-ton, Virginia. E. H. Pendleton & Co., of Cincinnati, Ohio, exhibited Foreman's patent portchinati, Unio, exhibited Foreman's patent portable flouring mill, with two run of stones, said to be capable of grinding one hundred harrels of flour in twenty-four hours. It appears to be a very complete affair, and occupies but a small

A new edition of the People's Pamphlet, giv-ing the rise and progress and wonderful cures of Perry Davis' Vegetable Pain Killer, from 1840 to the present time, given gratis by the agents o this valuable medicine. It is richly worth a perusal. This unparralleled preparation is receiving more testimonals of its wonderful efficacy in removing pains, than any other medicine ever offered to the public. And these testimonals come not alone from the ignorant, but from per-persons of every degree of intelligence, and every ank of life. Physicians of the first respectability and perfectly conversant with the nature of dis eases and remedies, have recommended this as one of the most effectual in their line of prepar ations for the extinction of pain.

As an internal remedy the Pain Killer has no equal. It will cure Cholera, Cholic, Summer Complaint, Dysentary, Dysepsia, Asthama, Rheumatism, &c., by taking it internally and bathing with it freely. It is the best liniment in America. Its action is like magic, when externally applied to had sores, bruises, appears however nally applied to had sores, bruises, sprains burns and scalds, either on man or beast. ead-ache and tooth-ache, don't fail to try it .-Full descriptious in the "People's Pamphlet."

EAGLE FOUNDRY. WALLACE, LITEGOW & CO., BTOVE, GRATE, COPPER, TIN, SHEET-IRON AND HOLLOW WARE MANUFACTURERS, No. 536, Northwest corner Main and Third streets Louisville. Ky,

I calling the attention of dealers in our line la this market, we would state that during the last six months our attention has been directed to getting up a large number of new Stove and Grate Patterns, which, added to our already large stock, gives its one of the most extensive and diversified assortments in the western market. Among the number, we would refer to our "Ashland Kentuckian' Cook Stove, (three sizes out.) These Stoves have great weight of metal, highly finished and elegant in appearance. They cumbine all the modern improvements that practical experience has developed.

We would invite dealers to call and examine for themselves, and we think in quality, price, &c., they can be suited. Having enlarged our manufacturing department, we can promptly meet all demands. Thankful for the patronsing which has been so kinkly bestowed upon us, we care a continuance of it. And the quality of our manufactured continuance of it. And the quality of our manufactured work shall be, as heretofore, equal if not superior to the best, and satisfaction given in all casees.

C. URBAN, Esq.: Dear Sir-We take pleasure in expressing our entire satisfaction in the utility of your Salamander Safes, of which we had two in use atour Liquer and Rectifying establishment, on Sycamore street, at the late severe conflagration. Burrounded by the most combustible material, and remaining for nearly two days in the burning ruins, our suprise was beyond description in flading, after opening said Safes everything in good order. In tendering to you our sincere gratification, we do not he situele, as we know from experience that they truly are what they represent to be, "fire proof."
